About Me

Dedicated and detail-oriented software developer. I have gained some experience at Kibabii university's computer science industrial training program which equips learners with first-hand field knowledge.

I have also completed several successful software projects over the years that I have been part of the Kibabii university community.

Ideally, I would like to continue to specialize in software project production, an area where I know your firm excels.

Professional Experience

Freelancer

I have worked as a freelancer at upwork, freelance and Remotasks.

Responsibilities:

- updating pages for a website.
- Developing website for clients.
- Creating web pages for existingwebsites.

Achievements

2022 – 2022	completed Devslopes basic HTML and CSS training course.
2021 – 2021	Completed series of PHP projects course on YouTube by Vijay Thapa.
